

Fabrication Capabilities:

Laser Cutting

- 5x10 sheets
- Steel 26 gauge up to 3/4" thick
- Aluminum 22 gauge up to 1/4" thick
- Galvanized and Aluminized 18 gauge up to 14 gauge
- Radan nesting software
- 24-7 run capability
- Tubing up to 3x3 and 11 gauge wall thickness

Punch

- Max blank size 26x48
- Can punch steel, aluminum and stainless up to 1/4" thick

Press Brakes

- 60 ton 6ft
- 175 ton 12ft
- 175 ton 10ft-with self-seating ,self-centering , auto clamp tooling for quick set ups
- Can bend up to 1/4" thick sheet metal

Roller

- We can roll up to 1/4" thick on all materials
- Max width of material 5ft
- Minimum 7.5" diameter circle no max

Welding

- Mig and Tig for all types of metal
- 2 station Robotic welder
- Spot welding

Grinding

- Multiple hand grinding capabilities
- Straight line capable
- Random arc capability

Several finishing and assembly options are also available!
